**DALE W. SCHULTZ**

Wisconsin State Representative

A-90-16  
IV-D-48

July 19, 1990

The Honorable William K. Reilly  
Administrator, Environmental Protection  
Agency  
401 M. Street S.W.  
Washington, D.C. 20460

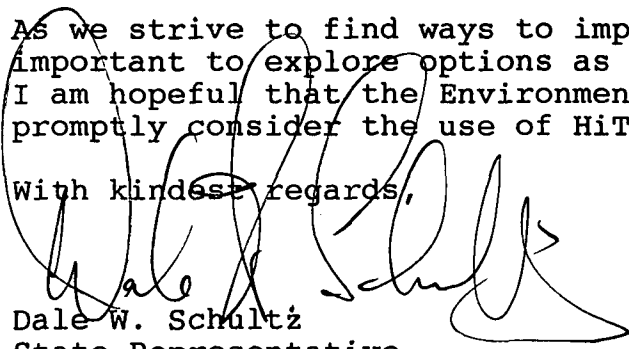

Dear Mr. Reilly:

As a member of the Wisconsin Assembly Environmental Committee, I am writing to urge you to give consideration to the use of HiTEC 3000 as a means of reducing air pollution.

HiTec 3000 is a readily available fuel additive that seems to significantly reduce smog-producing nitrogen oxide, and overall tailpipe emissions. This additive is apparently compatible with ethanol, methanol and reformulated fuels.

As we strive to find ways to improve air quality, it is important to explore options as they become available to us. I am hopeful that the Environmental Protection Agency will promptly consider the use of HiTec 3000.

With kindest regards,

  
Dale W. Schultz  
State Representative  
50th Assembly District
